Is the school meeting Adequate Progress from Plan (Original/Updated)? Why or Why Not?	<p>The school is moving forward with implementing the Corrective Action Plan, however the fidelity of the implementation remains to be a concern. One of the most important items that we recommended is reviewing job descriptions to better align with support and accountability. The review has happened, the next step is to review the implementation of the job descriptions to ensure that the implementation/changes are being done with fidelity. The school should develop an accountability system for the contracted business manager and ensure that the office managers job description and support is aligned to the needs of the school first and foremost.</p>
